Company Registry (NIRE): 33.3.0026694-1

Rio de Janeiro, May 28, 2018 – Profarma Distribuidora de Produtos Farmacêuticos S.A. (B3: PFRM3) hereby informs that the nationwide truckers' strike has been adversely affecting its business activities. However, through its Crisis Committee, the company has been working to implement measures to adjust its operations to this disruptive scenario. To date, the operations of distribution centers and stores have not been suspended. The main impact has been on the distribution of goods, given the protests blocking state and federal highways.

The Company, with the support of the Brazilian Pharmaceutical Wholesalers Association (Abafarma) and the Brazilian Drugstore Chain Association (Abrafarma), has been calling attention to the importance of avoiding any shortages of pharmaceutical products in the supply chain of essential healthcare services and continues to operate under its contingency plan.

Profarma will maintain its shareholders and the market duly informed of any developments associated with this notice. We reaffirm our commitment to transparency in our relations with clients, suppliers and investors.

Rio de Janeiro, May 28, 2018
